

Is Your **Knee Pain** Keeping You From Doing Things You Enjoy?

Advent Clinical Research is conducting a research study to evaluate the safety and effectiveness of an investigational medication to treat knee pain due to osteoarthritis.

You may qualify if you:

- Are between 40 and 85 years of age
- Have osteoarthritis in your knee
- Are still experiencing moderate or severe pain despite taking your current medications

If you qualify, all study related medical care, lab tests and study drug or placebo are provided at no charge. You will also be compensated for your participation.
